- Dosing options for tailored patient protocols
- Not available in retail channels

It's what's inside that counts

Pendulum GLP-1 Probiotic Pro is formulated with the beneficial bacterial strains that help produce more endogenous GLP-1.*

 Pendulum EXCLUSIVE <i>Akkermansia muciniphila</i> Secretes the postbiotics propionate and p9 which induce GLP-1 production.*	 <i>Clostridium butyricum</i> Produces the postbiotic butyrate which stimulates GLP-1.*	 <i>Bifidobacterium infantis</i> Produces the postbiotics acetate and lactate which feed bacteria such as Akkermansia and Butyricum, promoting an ecosystem in the gut that supports a healthy gut lining and naturally boosts GLP-1.*
---	---	--

How the microbiome stimulates GLP-1 production, naturally

Pendulum GLP-1 probiotic pro is formulated with the beneficial bacterial strains that help produce more GLP-1.*

*Based on preclinical studies

Incorporate this natural approach to GLP-1 production in your practice
