

Pendulum[®] PRO

Metabolic Daily Pro

Improve metabolism*

Pendulum Metabolic Daily Pro is a live multi-strain probiotic that naturally replenishes the gut microbiome, optimizing metabolism to support a healthy weight.

This targeted formula also helps break down fiber and increases beneficial postbiotics and hormones, such as butyrate and GLP-1, which help maintain blood sugar levels. The result? Less sugar cravings and crashes—just balanced, sustained energy throughout the day.

Supplement Facts

Serving size: 1 capsule
Servings per container: 30

Amount per capsule		% DV
Probiotic blend	1 billion AFU	†
<i>Clostridium butyricum</i> WB-STR-0006		
<i>Clostridium beijerinckii</i> WB-STR-0005		
<i>Bifidobacterium infantis</i>		
<i>Anaerobutyricum hallii</i> WB-STR-0008		
<i>Akkermansia muciniphila</i> WB-STR-0001		

† Daily Value (DV) not established.

Other ingredients: microcrystalline cellulose, hypromellose (vegetarian capsule), fruit and vegetable juice (color), silica

Reduces sugar cravings

Breaks down carbs more efficiently*

Sustains energy levels

*Based on in vitro studies

Pendulum Pro: Exclusively for healthcare providers

- Premium desiccant-lined packaging ensuring maximum viability
- Two-year shelf life
- Dosing options for tailored patient protocols
- Not available in retail channels

The powerful ingredients in Pendulum Metabolic Daily Pro

 <i>Clostridium butyricum</i> Naturally found in the human gastrointestinal tract, this strain is named for its ability to produce high amounts of the short-chain fatty acid, butyrate. It's been associated with digestion support and immune health.	 <i>Clostridium beijerinckii</i> This novel strain produces the short-chain fatty acid, butyrate, which helps the body process sugar and nourish the lining of the gut.	 <i>Anaerobutyricum hallii</i> This is another strain known to produce the short-chain fatty acid, butyrate, to help the body process sugar and nourish the lining of the gut.
 <i>Akkermansia muciniphila</i> A highly targeted live strain that can only be found in Pendulum products. People with type 2 diabetes are shown to be deficient in Akkermansia, a keystone beneficial strain for gut barrier function and also associated with healthy weight management.	 <i>Bifidobacterium infantis</i> This strain breaks down a range of foods and produces the intermediate molecules that are used by the three butyrate-producing strains. It also helps maintain a healthy gastrointestinal tract and alleviates digestive issues.	 State of the art delivery capsule Pendulum Metabolic Daily Pro is encased in a plant-based, acid-resistant, delayed release capsule, so that the strain gets through the stomach acid and to the gut microbiome where it can do its job.

Bring this innovative approach into your practice

Help your patients find optimal health by harnessing the power of the gut microbiome with Pendulum's clinically-studied strains. Create an account to access education, resources, and special healthcare pricing.
